

## LOGICA MI.MICRO

|  | Technical Specifications          |
|--|-----------------------------------|
| operation  | Electrical with numerical control |
| printing force                                   | 400 N                             |
| Nº of colors                                     | 1-2                               |
| max printing speed                               | Adjustable up to 3600 c/h         |
| max pad height                                   | 58 mm                             |
| AC supply  | 110-230 V single phase 50/60 Hz   |
| average consumption                              | 100 W                             |
| weight   | About 49 kg                       |
| size   | About 560x600x800 (h) mm          |
|  | Maximum Plate and Printing Size   |
| max cliché size<br>1 color (open system)         | 140x70x10 mm                      |
| max printing diameter<br>1 color (open system)   | 45 mm                             |
| max cup diameter<br>1 color (closed system)      | 60 mm                             |
| max printing diameter<br>1 color (closed system) | 45 mm                             |
|  | Optional Accessories              |
| cross tables                                     | TO100                             |
| rotary tables                                    | TRCN02, TRCN03, TRCN04, TRCN06    |
| shuttle system                                   | Pitch 76.2 mm                     |
| automatic pad cleaning device                    | PIC mi.micro                      |
